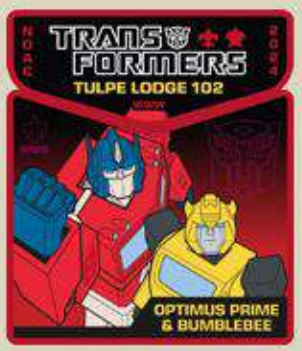
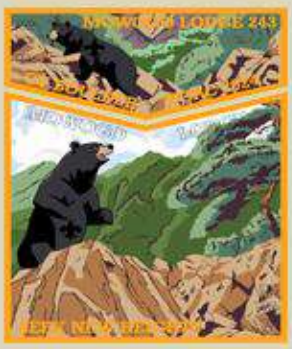
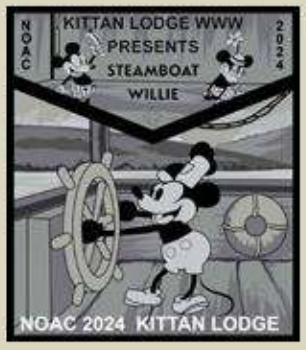
NOAC 2024

PATCH MEMORABILIA GUIDE



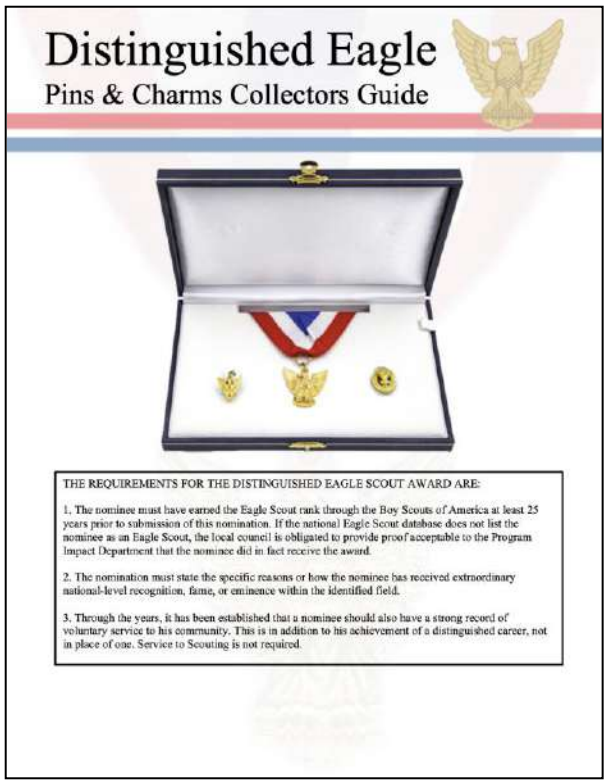




About The Author

My name is Brian Ives and I have been in scouting since the first grade as a Tiger Cub. In 2002 I earned the Eagle Scout Award at the age of 14 with the Ventura County Council in Simi Valley, CA. As a youth, I served the troop in various leadership positions such as Troop Guide, Patrol Leader, Assistant Senior Patrol Leader, Senior Patrol Leader, and Junior Assistant Scoutmaster. I enjoyed creating monthly Troop Newsletters, Court of Honor Programs, Uniform Inspection Sheets, Duty Rosters, etc. Before reaching my 18th birthday, I earned 105 merit badges and 4 silver eagle palms. Once I became an adult, I volunteered as an Assistant Scoutmaster and Merit Badge Counselor for the Collections and Coin Collecting merit badges.

After relocating to Georgia in 2014, I became registered with the Northeast Georgia Council / Mowogo Lodge and have staffed at many of the National Scout Jamboree's by teaching the Collections Merit Badge / ISCA Booth. I have been attending NOAC since 2012 and enjoy trading patches and creating digital media for scouting collectors. I created the popular PDF books showing all the patch designs for both the 2022 NOAC and 2023 National Jamboree. So many people expressed their appreciation for these helpful books. I hope you enjoy the 2024 NOAC Patch Guide as well. **Come find me at NOAC and lets trade some patches!**



I have always been fascinated with the history of the Eagle Scout Award. A majority of my scouting memorabilia collection is Eagle Scout related items.

Distinguished Eagle Scout Dr. Terry Grove conducted lots of research on the history of the Eagle Scout Award. Terry and I would communicate with each other often about all the different varieties when it came to pins, charms, rank patches, advancement cards, congratulation cards, etc.

I was fortunate to purchase his Distinguished Eagle Scout Award Pin / Charm collection after he passed away and combine it with my own. I created a PDF showcasing my collection as a resource guide to collectors. **Click here to view the DESA Collectors Guide.**

My friend and I are still missing some known hallmarks. Visit our NEED page for hallmarks we are still looking for. If you have a DESA variety I am missing or have any Knights of Dunamis (predecessor to NESA) pins, please contact me!

I am the admin of several scouting websites / Facebook groups. **Click the banner image to view each site**.

DISCLAIMER:

* Some of the artwork shown may not have been produced.
* Some Patches produced may not appear on this list.
* Some of the numbers shown may not be accurate.

This was a massive undertaking on my part and there is bound to be human error! Some of the information I received differs from Patch Scan and some of the details may not be accurate.

The PDF guide is simply a reference guide of designs that may or may not have been created.

Please Note: I have been asked if I will be making any edits to this NOAC Patch Guide if there are any errors. It is not that I don't want to, but due to my busy schedule, I will not have time to make any edits. Once NOAC is over, I will be returning back to work and will not have time to make any edits to the NOAC Patch Guide.

This PDF guide is simply a reference guide of designs that may or may not have been created.

I prefer the artwork over the actual patch image as the artwork is clean. When you rely on others to send photos of the actual patch, they may not be good quality photos. There may be slight differences between the artwork and the final stitched patch.

This project was so consuming - I have spent countless hours contacting Councils / Lodges / Individuals and searching online for NOAC related images. This project took months to assemble and I am very pleased with the overall outcome. We hope you find it helpful when patch trading! Thank You to all the Councils / Lodges / Individuals who supplied me renderings of their NOAC patch sets.

There were a lot of fees associated with creating this patch guide. Not only all the time spent; marketing materials include: Signage, Constant Contact, Compression software, Shipping, etc. If you found this guide helpful and would like to make a donation (either a NOAC patch set or cash), it would be greatly appreciated. Thank you for your support!

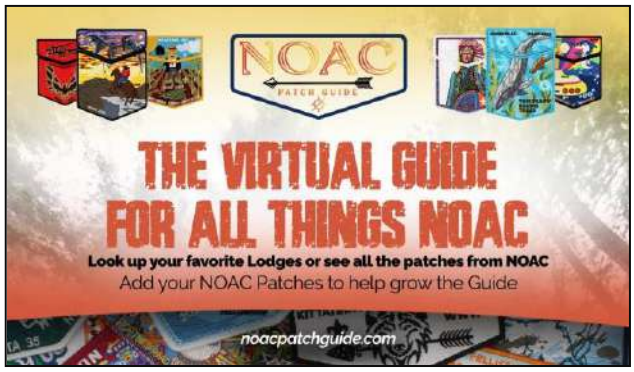
NOACPatchGuide.com



Adam McDaniel created a website called NOACPatchGuide.com where only scans of actual NOAC patches are shown (No Artwork). He has a booth at NOAC where he will be scanning NOAC issued patches and uploading them directly to the site. I encourage everyone to visit his booth located at the Village Center Expo outside near the shuttle stop. (K on the map)

In addition to the website, Adam also developed an app that is available on both the Apple store and Google Play store.

2024 NOAC Patch Trading Policy

Patch trading has long been an honored Scouting activity which builds comradery and extends Scouting beyond a Scout's home troop and community. At the core of appropriate patch trading in Scouting is that the trades always reflect the ideals of the Scout Law.

At the 2024 National Order of the Arrow Conference (NOAC), patch trading is an official program activity monitored by the Activities and Recreation Committee (ARC) and assisted by International Scouting Collectors Association (ISCA) members. To promote safe and appropriate patch trading, it is the policy of the Order of the Arrow that:

- Patch trading is an open activity and may be conducted anywhere at NOAC as authorized by the University of Colorado and the Order of the Arrow so long as displays and persons trading/viewing do not interfere with the safe movement of pedestrians and vehicles.
- Trades may be youth/youth, youth/adult, or adult/adult so long as such interactions conform to the BSA's Youth Protection Guidelines and Barriers to Abuse policies and such trades adhere to the ideals of the Scout Law.
    - An adult is anyone 18 years of age or older.
    - Use the buddy system. Always have a friend or group with you, to make sure you're safe at NOAC, especially in large and confusing crowds.
- The trading of any award or rank patches, Scouting knots, religious medals, or badges of office is prohibited and violates Article X of the Rules and Regulations of the Boy Scouts of America.
- If trading a non-Scouting item or patch (one not issued by a Scouting organization), the trader will disclose the fact prior to the trade.

An area designated as the "official" patch trading area will be at the University Memorial Center. Additional areas may also be established. Resource materials and trading staff will be present at designated areas during program hours for crowd control and for questions and/or guidance in trades if requested.

Alpha Phi Omega	
350 Made	
	APO Eagles proudly announces our NOAC 2024 "Challenger" patch. This two-piece set is the third in a series of six Space Shuttles, which will culminate at the 2026 Jamboree. Each "Challenger" set is comprised of an Alpha Phi Omega piece at the top, and an APO Eagles piece at the bottom to complete the set. This set shows "Challenger" in both the launch and landing positions, an APO Service Pin, and a brief detail of the Eagle Scouts who flew on "Challenger." Additionally, the patch recognizes the loss of Eagle Scout Ellison Onizuka, when the vehicle was lost in service.
